Teton County's Phased Guidelines for Businesses and Organizations to Maximize Public Health and Economic Reactivation

These are recommendations that are subject to modification and may be superseded by health orders and / or guidance. Please check these guidelines frequently for changes. Recommendations for changes should be emailed to Sara.Budge@wyo.gov. Please see the most current State of Wyoming and Teton County health orders at <https://www.jhcovid.com> or <http://www.tetoncountyywy.gov/2064/COVID-19-Health-Orders>

Changes from previous version are highlighted in yellow.

General Employer Guidelines (applicable across all industries)	2	Construction, General Contractors, and Manufacturing	16
Restaurants, Food Service Establishments, and Food Trucks	4	Gyms and Fitness Centers	17
Places Serving Alcohol	5	Outdoor Equipment Rentals, Outfitters, and Guide Services	18
Third-Party Food and Grocery Delivery Service	6	Outdoor Recreational Gatherings	18
Retail (including Grocery Stores, Pharmacy)	7	Large Outdoor Events	19
Hospitality, Tourism & Accommodations	9	Property Management and Real Estate	20
Indoor Events, Entertainment, and Sports	10	Child Care	21
Weddings	12	Day Camps and Summer Youth Programs	22
Campgrounds and Forest Recreation	13	Transportation	23
Faith-based Organizations and Funeral Homes	14		
Personal Services	15		
Home Repair	16		

General Guidelines for Employers During Red, Orange and Yellow Phases

Best Practices

- Designate a workplace coordinator available during each shift who will be responsible for COVID-19 issues and their impact in the workplace. Stay up to date on the CDC's business checklist: <https://www.cdc.gov/coronavirus/2019-ncov/community/organizations/businesses-employers.html>
- Educate the workforce about the threat of the pandemic, what the business is doing, and what they should do to protect themselves and their families.
- Employees and customers should not congregate in groups:
 - Allow employees to work from home if their job duties permit
 - If possible, establish cohorts or shifts of employees to limit the number of other workers each employee is in contact with
 - Use floor markings or other visual means to mark appropriate physical distance (6 feet). Make regular announcements to remind employees and/or customers to follow distancing guidelines
 - Use online conferencing, email, or phone calls to communicate instead of in-person meetings, even when people are in the same building
- Encourage contactless pay options.
- Encourage digital files rather than paper formats (e.g., documentation, invoices, inspections, forms, agendas).
- Prepare for absenteeism—not only sick employees will stay home; others may need to care for the sick family members or children if schools close.
- Update the business' emergency communication plan with key contacts and backups, chain of communications, and processes for tracking and communicating. Share the response plan with employees and communicate expectations.
- Ensure every employees' contact number(s) and emergency contact details are up to date; ensure a communication plan is in place to reach employees quickly.
- Consider what reserve supplies might be necessary (e.g., cleaning supplies, gloves, or other protective equipment, "to-go" containers).
- Establish and maintain open dialogue with local communities, including key vendors and suppliers, exploring contingencies, and sharing appropriate decisions about foodservice, transportation, and other services.
- Provide signage at each public entrance to inform all employees and customers that they should:
 - Avoid entering if they have a cough, fever, shortness of breath, or feel generally unwell
 - Maintain a minimum of 6-foot distance (10-foot distance in gyms, fitness centers, or large event spaces due to increased exertion, heavier breathing, cheering is preferable)
 - Sneeze/cough into a elbow/cloth or tissue, not hands
 - Refrain from shaking hands or engage in any unnecessary physical contact
 - Wear face coverings in accordance with [CDC recommendations](#)

Cleaning & Hygiene Guidelines

- Promote etiquette for coughing, sneezing, and handwashing; avoid touching face, especially eyes, nose, and mouth; place posters that encourage hand and respiratory hygiene.
- Cloth face coverings should be worn by employees and patrons in accordance with [CDC's recommendations](#), especially when difficult to maintain 6-foot distance.
- Discourage workers from sharing resources or other work tools and equipment, when possible; avoid handshaking.

- Make a list of high-touch surfaces requiring routine disinfecting and perform routine environmental cleaning (e.g., workstations, countertops, handrails, doorknobs, break rooms, bathrooms, other common areas), either twice a day or after each use. Keep a logbook of cleaning regimen.

Those cleaning should:

- Wear gloves
 - Clean surfaces with soap and water if dirty before disinfecting
 - Use EPA-registered household disinfectant, diluted bleach, or alcohol solutions
- Laundry: wear gloves, use warmest appropriate water setting, dry items completely, do not shake dirty laundry, launder sick person's items separately.
 - Make hand sanitizer, soap and water, or effective disinfectant readily available at or near the entrance, at checkout counters, or anywhere else where people have direct interactions. Provide additional portable handwashing stations or facilities if possible or necessary.
 - Personal Protection Equipment (PPE) should not be shared and should be disposed of properly.
 - After using gloves, employees should wash their hands.

Monitoring Symptoms, Symptomatic Employees, and Returning to Work

- Train employees to spot symptoms of COVID-19. Severity of symptoms ranges from very mild to severe and may include cough, shortness of breath, fever above 100.3 F, chills, headache, muscle pain, sore throat, and/or new loss of taste or smell.
- Employees should self-monitor for symptoms daily. This may include a paper symptom tracker they use at home or work, electronically logging symptoms in spreadsheets, or a simple verbal reporting of symptoms to management. Daily recording of symptoms will help medical professionals determine the onset of disease and help identify potential contacts. Link: <https://tetoncountywy.gov/2076/Businesses>
- The U. S. Equal Employment Opportunity Commission (EEOC) recently clarified that it is appropriate to have employees track symptoms or for employers to take temperatures prior to entering the building. During the COVID-19 pandemic, employers are permitted to check employees and job candidates for symptoms or fevers because the circumstances related to a potential direct threat to others safety. Employers may also require any employees or candidates exhibiting COVID-19 symptoms to stay at home. It is important that the names and records of symptomatic employees are protected health information and must remain confidential. It is also crucial to note that if you ask one employee about symptoms, you must ask all of them, or it could be considered discriminatory. For further information on COVID-19 and employment laws follow this EEOC link: https://www.eeoc.gov/eeoc/newsroom/wysk/wysk_ada_rehabilitaion_act_coronavirus.cfm and this OSHA link: https://www.osha.gov/SLTC/covid-19/news_updates.html
- When checking for fevers remember:
 - Wait at least 6 hours after taking fever reducing medications that can lower your temperature and wait 30 minutes after exercise. If using an oral thermometer wait 30 minutes after eating or drinking to take your temperature.
 - Both oral and temporal thermometers can be used. Follow manufacturer directions. For more information on thermometer use visit this Cleveland Clinic link: <https://my.clevelandclinic.org/health/articles/9959-thermometers-how-to-take-your-temperature>. For more information on using infrared temporal thermometers visit this FDA link: <https://www.fda.gov/medical-devices/general-hospital-devices-and-supplies/non-contact-infrared-thermometers>.
 - If a thermometer is not available, you may instead record if you felt feverish, i.e., a "subjective fever." This is when one experiences overheating, chills, and/or body aches.
- Do not allow employees to come to work if they feel sick. Enact non-punitive leave policies so employees do not feel pressured to come to work if they are sick.
- Employees who are sick or who appear to have symptoms should be separated from other employees and customers immediately and sent home; immediately clean and disinfect areas the sick employee visited.
- Employees with unexplained symptoms should seek testing by contacting their primary care provider. If they do not have one, call St. John's Health Hotline at (307) 739-4898, option 3. Uninsured or under-insured individuals with COVID-19 related symptoms can call the Teton County Health Department at 307-733-6401 for a voucher for a free COVID-19 active disease test at Emerg-A-care or St. John's Health.
- If an employee is confirmed to have COVID-19, employers should inform fellow employees while maintaining patient confidentiality; fellow employees should self-monitor for symptoms for 14 days or self-quarantine if directed to by a medical provider.

Unless otherwise directed by a medical provider, employees with suspected or confirmed cases of COVID-19 should not return to work until:

- At least 3 days (72 hours) have passed *since recovery* defined as resolution of fever without the use of fever-reducing medications **and** improvement in respiratory symptoms (e.g., cough, shortness of breath); **and**,
- At least 10 days have passed *since symptoms first appeared*

Tiered Recommendations for Businesses and Employees

Please check all current health orders to identify the minimum enforceable requirements.

Category	High Risk	Moderate Risk	Low Risk	New Normal Risk
Restaurants, Food Service Establishments & Food Trucks	<p>Operates under the General Guidelines for Employers. Closed to ingress, egress, use, and occupancy by members of the public. Curbside pickup, drive-through, and delivery only.</p> <ul style="list-style-type: none"> Stagger workstations so workers are not facing one another and can maintain a 6-foot distance Organize staff into cohorts or shifts to reduce interaction between the groups When delivering food, drivers should use hand sanitizer before passing delivery to customers Restaurants should use disposable containers and packaging that do not need to be returned To-go boxes, pizza boxes, paper cups, and any other paper product that touches food must be treated as food. Gloves must be worn when handling Encourage contactless payment; if not possible, sanitize between transactions Staff should sanitize hands between handling payment options and food/containers Employers provide personal protection equipment such as face coverings, hair nets, and gloves 	<p>Operates under the General Guidelines for Employers. Takeout/delivery options preferable. Dine-in services allowed with extreme precaution.</p> <ul style="list-style-type: none"> All patrons shall be seated at tables (booths are included in the definition of tables). Limit tables to groups of 6, preferably of the same household. May seat greater than 6 if all from same household. Tables with guests must be at least 6 ft apart (and preferably 10 ft apart) on all sides when seated. Either move tables or mark off tables not to be used. Limit number of people to accomplish this. Bar seating is allowed if 6 foot distancing can occur. 6-foot distance must be maintained between household parties, indoor or outdoor with signage and floor markings Staff interacting with public (within 6 ft.) must wear face coverings at all times and perform hand hygiene between interactions with each table. Hand hygiene includes hand washing as well as hand sanitizer use if hands are not visibly dirty. These staff do not need to wear gloves if they are not touching any read-to-eat food. Cups, lids, and straws must not be out for the public to handle and must be handed directly to customers by staff instead Tables must not be set before seating. Staff need to avoid touching items that have been placed on the table (menus, plates, cutlery, pens, cups, etc.). The table will be cleared by a dedicated staff member once all guests have left. This busser should not be involved in the serving of foods and beverages, hosting, setting of tables, etc. This same staff member may sanitize surfaces between table groups. A dedicated staff member must sanitize between customers. The area occupied by the customers must be sanitized after use, including tables, tablecloth, pens, salt, and pepper shakers, etc. Consider use of disposable items (including bottled water, silverware, etc.) The restaurant may not operate if PPE (face coverings, gloves, etc.), EPA-approved disinfectants and sanitizers, soap, and other necessary cleaning supplies are not available Hosts preferably open doors for customers and guide them to their seats to prevent traffic or contamination; hand sanitizer should be available outside entrance Hand sanitizer shall be available adjacent to all bathrooms Cleaning and disinfecting shall be performed in the morning, afternoon, and evening; all tables, chairs, door handles, floors, and bathrooms, and any high-touch surfaces must be cleaned and disinfected. No self-serve food service or buffet options unless food is pre-packaged 	<p>Operates under the General Guidelines for Employers. Dine-in services allowed with precaution.</p> <ul style="list-style-type: none"> Dine in options available with tables spaced feet apart; capacity increased incrementally, based on data & milestone trends Limit the number of people in a restaurant at any time to allow for adequate distancing – specific distance? Take-out options should still be encouraged Limit wait times inside the restaurant to 15 minutes and avoid crowding. Individuals should be encouraged to wait outside with physical distancing. Set an established window for high-risk groups to come in without pressure from crowds Maintain signage to remind individuals from separate parties to stand at least 6 feet apart No self-service of open food / or No Buffets. Clean drink machines frequently Do not preset tableware Stagger workstations so workers are not facing one another and can maintain a 6-foot distance Organize staff into cohorts or shifts to reduce interaction between the groups Encourage contactless payment; sanitize between transactions, discourage cash payments Staff handling payment should not touch food products 	<p>Operates under the General Guidelines for Employers. Dine-in restaurants operating under proper safety precautions for staff and customers.</p>

		<ul style="list-style-type: none"> No drink refills in same container. However, you may leave a beverage container (pitcher, carafe, etc.) on a table for that table to use for their own refills. This container could not be used for other tables until it has been cleaned and sanitized. To-go boxes, pizza boxes, paper cups, and any other paper product that touches food must be treated as food. Gloves must be worn when handling No bare hand contact of ready-to-eat food including ice. Gloves must be worn Employees shall be screened for symptoms of COVID-19, or exposure to an individual with COVID-19, prior to each shift; employees who are ill shall not be allowed to work; employees who have been exposed to a COVID-19 positive person within the previous 14 days shall not be allowed to work; employee logs of the screening activity must be kept and made available for inspection by the local health officer. Condiments, seasonings, etc. only by customer request and only if they can be cleaned between customers. Consider disposable packages or single serve Staff must sanitize hands between handling payment options and food/containers Encourage contactless and non-signature payment; when not possible, card and payment stations must be sanitized after each use Consider technology solutions for ordering, menus, seating and payment. The business shall maintain a record of staff working hours by date and time for purposes of COVID-19 contact tracing; if such recordkeeping is done manually, sanitizing measures must be taken on the instruments used for recordkeeping in between use No dart/pool leagues, dances, events, or karaoke may take place at the business Game areas and playgrounds in restaurants remain closed Signage must remind customers not to enter the business if they have symptoms of COVID-19 and must be displayed at the business entrance. No common foods such as popcorn or peanuts Menus must be sanitized between uses or disposable Stagger workstations so workers are not facing one another Organize staff into teams to reduce interaction between the groups <p>CDC Guidance - https://www.cdc.gov/coronavirus/2019-ncov/community/organizations/business-employers/bars-restaurants.html?deliveryName=USCDC_2067-DM28938</p>		
Places Serving Alcohol (Including bars, taverns, distilleries, & tasting rooms)	Closed to ingress, egress, use, and occupancy by members of the public.	<p>Operates under the General Guidelines for Employers. Food takeout/delivery options preferable. Dine-in services allowed with extreme precaution.</p> <ul style="list-style-type: none"> See guidelines for Restaurants and Food Service Seated service only Space seating for physical distancing (minimum of 6 ft. between tables) Bar seating is allowed if 6-foot distancing can occur. Only groups who arrive together may be seated together Hostess must seat groups to maintain distancing 	<p>Operates under the General Guidelines for Employers. Dine-in services allowed with precaution.</p> <ul style="list-style-type: none"> See guidelines for Restaurants and Food Service Approaching full occupancy Space seating for physical distancing (minimum of 6 ft between tables. 	<p>Operates under the General Guidelines for Employers. Establishments operating under proper safety precautions for staff and customers.</p>

		<ul style="list-style-type: none">Dance floors are closed to dancing but may be used as area for extra seating at tables.	<ul style="list-style-type: none">Only groups who arrive together may be seated together
